# THE DEFINITION OF LUXURY

TM6100 in White Oak with  
Shagreen Grey Oyster leather  
and One Step (OS) sticking

## Premium Architectural Doors

There was a time when doors were appreciated for their architectural value, gracing the openings of homes and embodying the principles of their design periods.

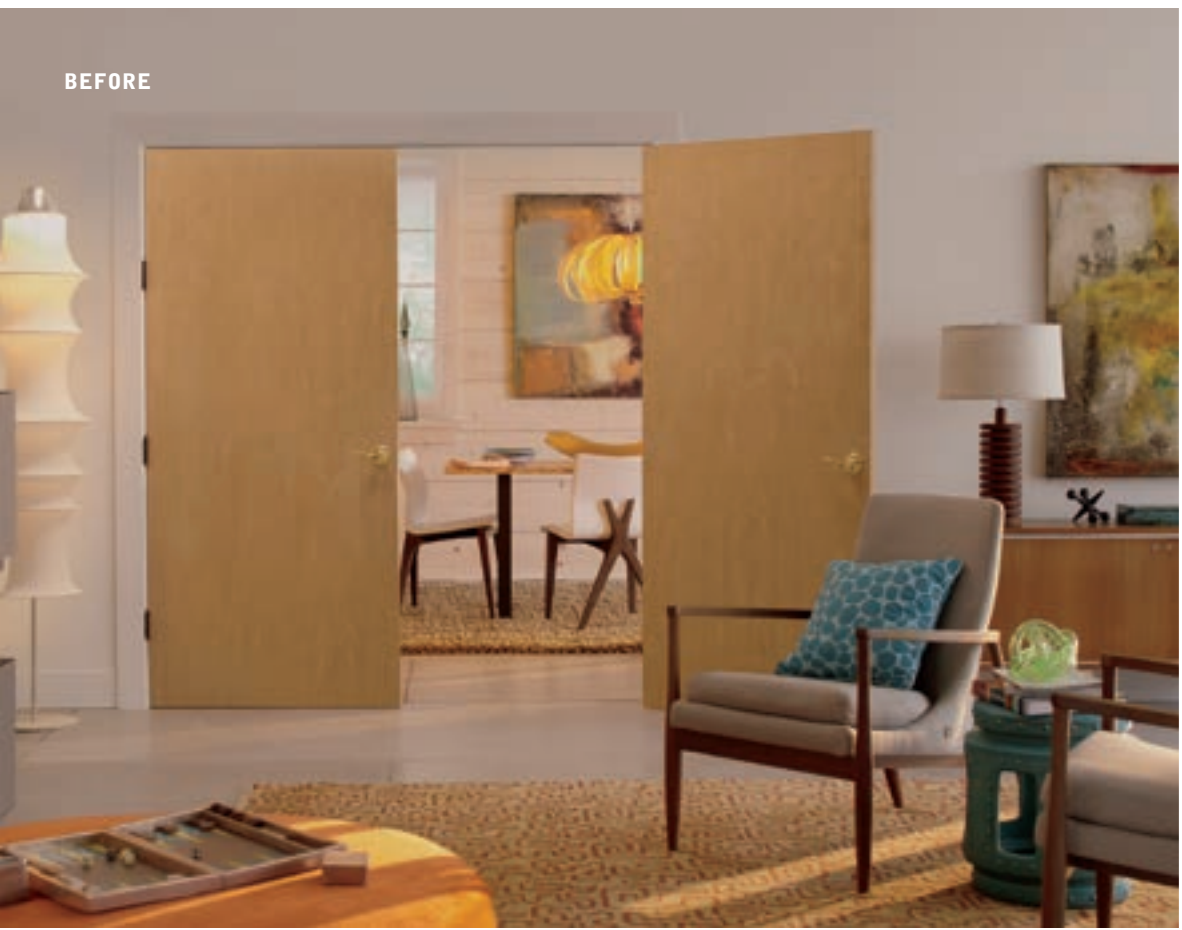

At TruStile, we miss those days. We are committed to partnering with architects, home builders and homeowners, to revive the rich tradition of building high-quality, architecturally-correct doors with a range of customization options to fit your preferences and your home's unique character.

**HANDCRAFTED  
AND  
CUSTOM MADE**

Our team of craftsmen, designers  
and machinists ensure only the best  
doors leave our shop.

# Visualize the TruStile Difference

BEFORE

All too often, doors are an overlooked design element — even in high-end custom homes that include an otherwise impressive selection of amenities and upgrades.

Other manufacturers have focused on value-engineering doors, thus diminishing their structural and design integrity. However, the visual impact of high quality architectural doors is dramatic.

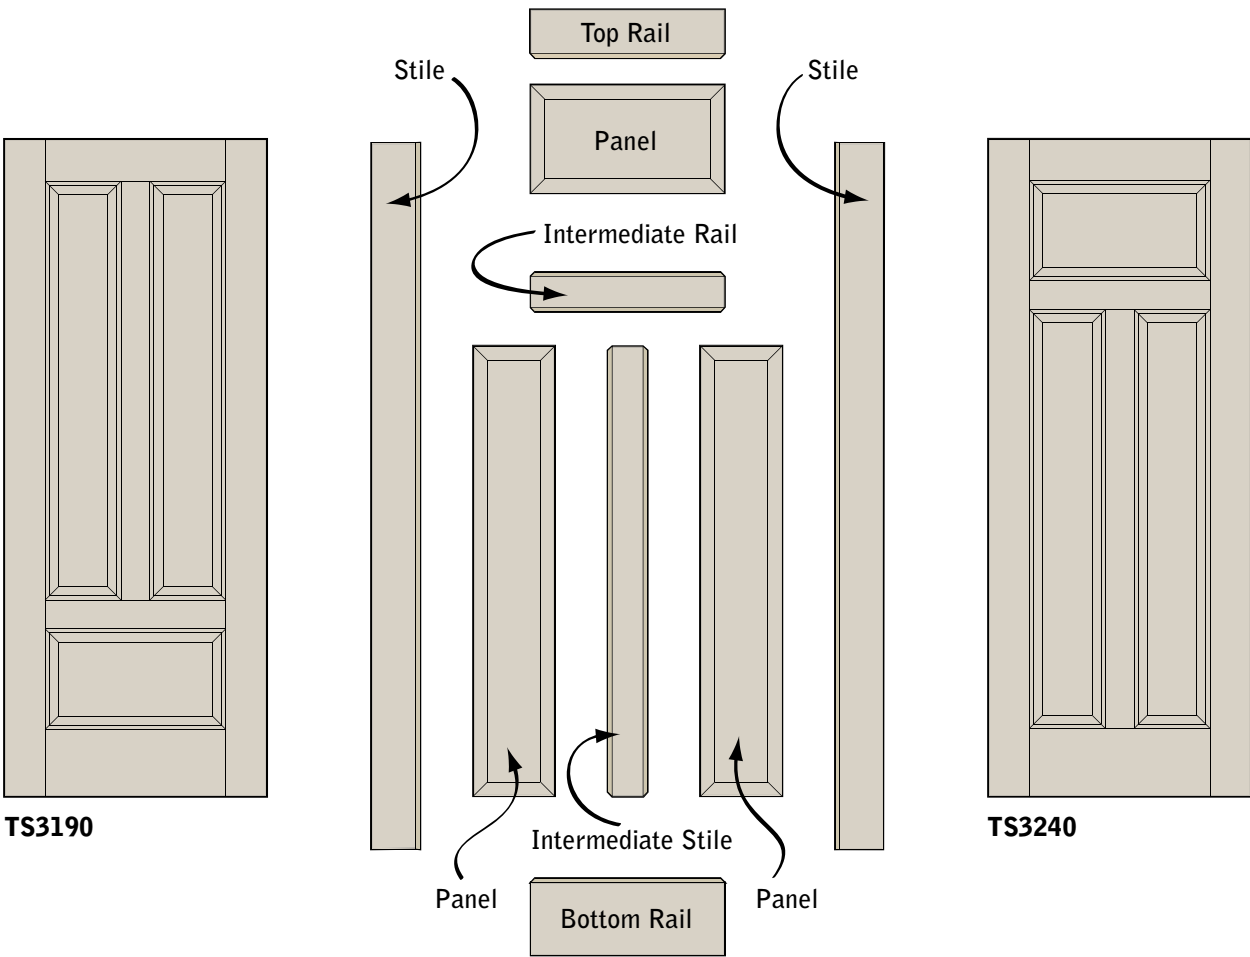

AFTER

TM13000 in Cherry with Kerf Cut reveal

# The Architecturally Correct Door

TruStile doors are made with authentic stile and rail construction. We wouldn't think of routing or stamping a door. Each TruStile door is made to order with perfectly proportioned components, created individually to ensure that every door is architecturally correct, regardless of size.

## All doors are not created equal.

The figure illustrates the timeless advantage of TruStile's authentic stile and rail construction. All door components can be customized and combined to create the style you desire, while the construction method gives each door crisp, architecturally-correct lines.

TS3240 in Cherry with Square Stick (SS) sticking and Flat (C) panel

# 6 Steps to Designing Your Perfect Door

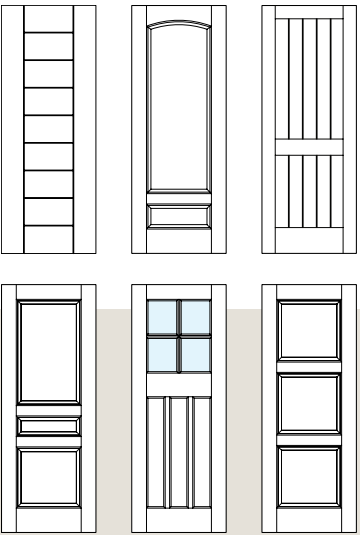

## TruStile Selection Guide

To guide your style choices, consider the recommendations in the Authentic Designs section on page 11.

1

### DOOR STYLE

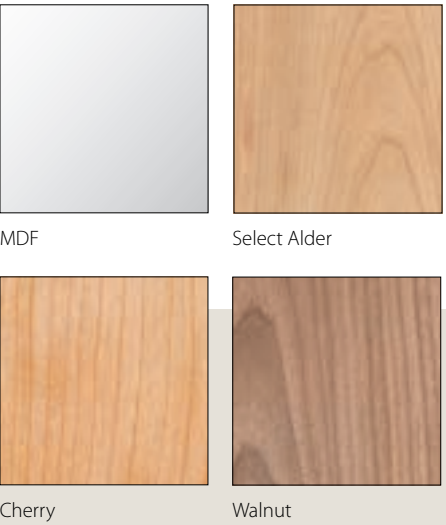

Choose from over 400 door styles to match your home's architecture.

2

### WOOD SPECIES

Select MDF for painted applications or choose from 20 wood species.

3

### PROFILE OPTIONS

Refine your design with the widest selection of profile options to match your desired style.

Roman Ogee (OG) moulding with Raised (A) panel

Square Stick (SS) sticking with V-groove panel

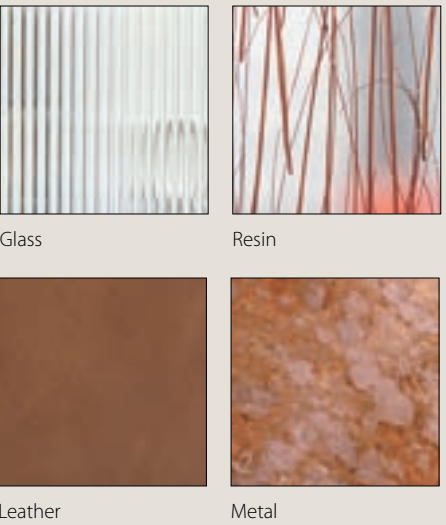

Bolection (BM) moulding with Senior Raised (E) panel

4

### MATERIAL INSERTS

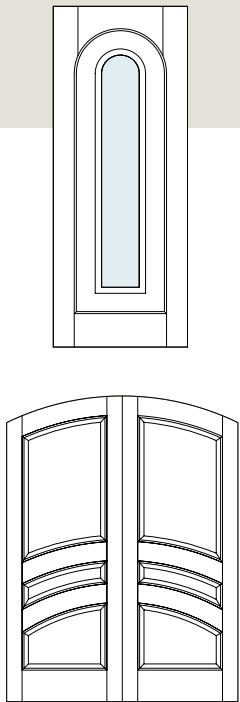

Consider exchanging a panel for a unique material insert — glass, resin, leather or metal.

5

### DESIGN OPTIONS

Further customize your doors with design options such as Built-in mirrors or Common Arch Pairs. See page 80 for more ideas.

6

### CUSTOM DIMENSIONS

Further customize your door design by changing the stile and rail dimensions.

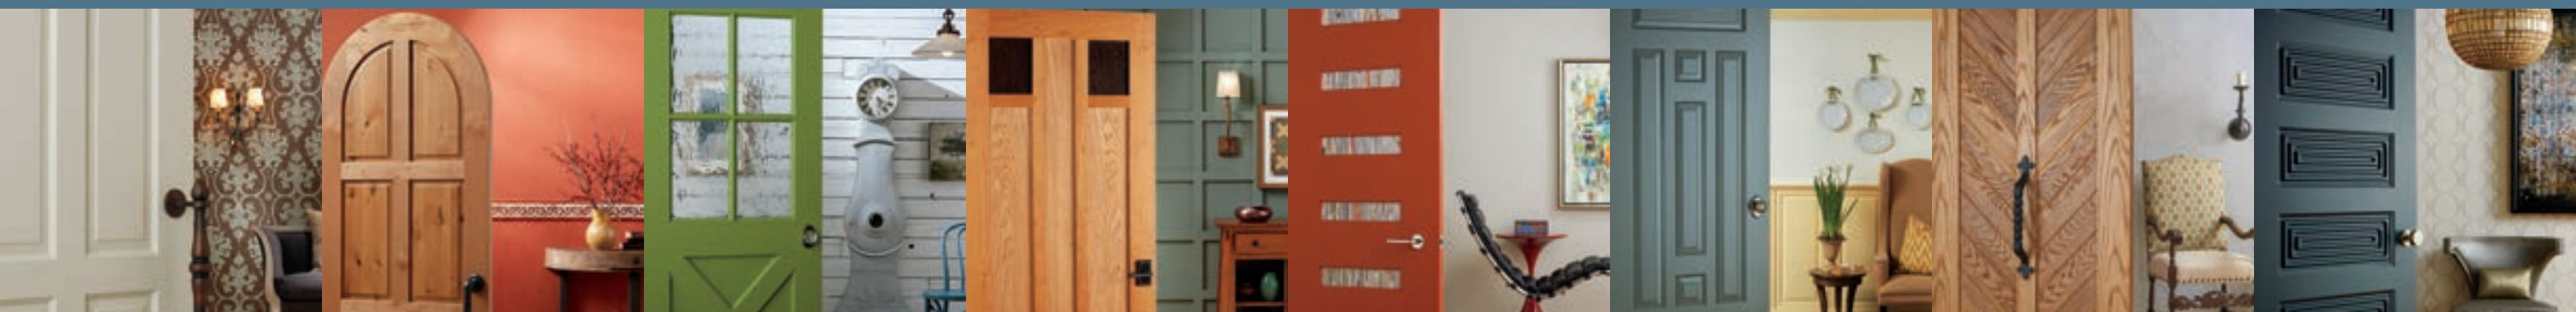

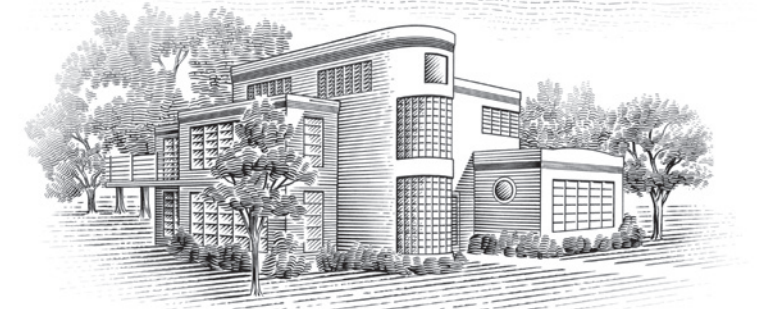

## Authentic Designs®

Where do you begin to choose the right door design for your home? TruStile's Authentic Designs makes the selection process fun and easy.

With a range of materials and options for 12 popular architectural styles, TruStile provides the widest range of on the market today.

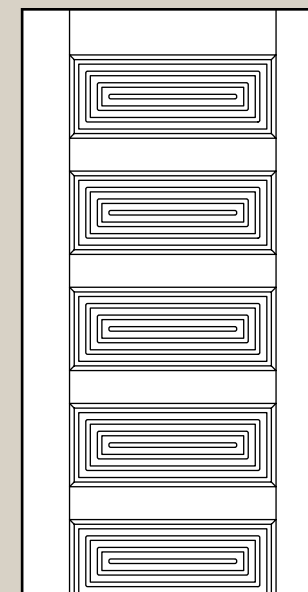

Read on and be inspired with just a few of our tantalizing options for distinctive, remarkable doors.

## ART DECO

An eclectic style decorated with geometric shapes  
and accents of metal and glass.

- The Art Deco design style began after WWI and flourished in the 1930s and 1940s, waning after WWII.
- While there are no distinct guiding design principles of Art Deco, there are stylistic elements connected by common themes: the decorative, the commercial, the fashionable and the symbolic.
- The TruStile Art Deco door styles combine modern European design ideas introduced in France with the romance of 1930s Hollywood.

# COLONIAL

An authentically American style characterized by stately, historic design features.

- A variety of architectural styles developed throughout the 18th and 19th centuries as the English, Dutch, Germans and French settled in America.
- Characterized by symmetry and balance, formal surface design and ornamentation with special attention to doors and windows.
- Authentic TruStile doors from the Colonial collection provide classic grace and elegance along with an early American sensibility.

# CONTEMPORARY

A forward-looking style that is uniquely yours.

- Contemporary architecture is the current building style of today.
- Characteristics of contemporary homes are unique or odd shaped frames, open floor plans, oversized windows, connected indoor and outdoor spaces and warm interiors.
- TruStile's Contemporary series is an eclectic collection that borrows ideas from different eras. Popular elements are clean lines and the use of natural, sustainable materials.

COTTAGE

## COTTAGE

A comfortable style that reflects architectural simplicity.

- The American cottage style of architecture was inspired by the English countryside and features a cozy, almost storybook character.
- Characteristics include steep roofs, arched doors and casement windows. A variety of natural materials can be used ranging from wood siding, stone, shingles and copper.
- TruStile's Cottage series represents historically accurate door styles in both panel and glass configurations, as well as updated interpretations of the historic designs.

CRAFTSMAN

# CRAFTSMAN

A simple style focused on natural materials and an attention to period details.

- The American Craftsman style emerged from the English Arts & Crafts movement of the late 1800s and was a reaction to the overly decorative Victorian era.
- Emphasizes simplicity of form, originality and local natural materials.
- Simplicity and quality workmanship define the TruStile Craftsman door collection.

FRENCH COUNTRY

## FRENCH COUNTRY

An eclectic yet decidedly French style that evokes classic European appeal.

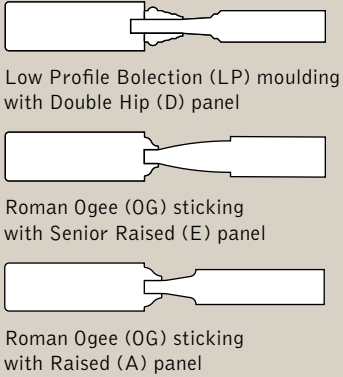

- From elaborate Ecole-des-Beaux-Arts inspired Chateaux to stunning estates in Provence, the French Country style includes decorative detailing, organic floral patterns, distressed woodwork and the use of both subdued and vibrant tones.
- Whether your tastes lean toward the formal Chateau style or the relaxed provincial style, TruStile's French Country series will take your design sensibilities back to the high style of French art and architecture.

## MEDITERRANEAN

An enduring trend in American architecture and interior design that expresses a Tuscan sensibility.

- Inspired by the Italian Renaissance, Mediterranean designs appeared in American architecture between the late 1800s and early 1900s. This movement drew heavily on Italian palaces and seaside or country villas.
- Mediterranean details include arched windows and doorways, recessed entryways, red tiled roofs and stuccoed walls.
- TruStile's Mediterranean collection brings the richness and charm of Italian living to your home.

VG1000 plank door in  
Hickory with wide V-groove  
and Cappuccino stain

Clean strong lines. Bold accents.  
Custom design options.

- Early Modern architecture took root in the U.S. in the 1920s and reached its peak in the mid 20th century.
- Characterized by simplification of form, an absence of ornate detail and a belief that “less is more”, Modern style has streamlined horizontal lines and uses industrial materials such as concrete, steel and glass.
- TruStile’s Modern Door Collection is centered around crisp, stacked rails, clean strong lines, oversized stiles, custom design options and bold accents.

SPANISH COLONIAL

## SPANISH COLONIAL

A warm style that exudes a sophisticated design with ornate touches.

- The Spanish Colonial style of architecture was popular in the early 20th century and was embraced in both Florida and California, as well as the southwestern U.S.
- This style is characterized by smooth stucco walls, low pitched roofs, arched entryways and small porches or balconies.
- TruStile's Spanish Colonial series showcases doors with simple lines associated with today's Mission-inspired architecture as well as decorative Spanish Revival door designs.

TRADITIONAL

# TRADITIONAL

Traditional design often reflects the common sense principles of practicality and functionality.

- Broadly defined, Traditional or vernacular architecture is viewed as a conservative way of building homes to retain the style and beauty of a particular community based on the localized design and historic context.
- On the East Coast, this style is most often associated with Cape Cod, Shingle or Americana styles, while in the Western U.S. the American Ranch style is predominant.
- TruStile’s Traditional series reflects the classic and historic design ideas of an earlier time and place.

TRADITIONAL

# TUDOR

Tudor architecture reflects a return to a more conservative and formal aesthetic.

- The Tudor period was a distinct part of the Revivalist period in architectural history.
- The Tudor home features steeply pitched gabled roofs, high chimneys, tall mullioned windows and half-timbering.
- Inspired by English manor homes, the TruStile Tudor series features an assortment of elegant designs and gentle arches.

## V I C T O R I A N

Where unconventional ideas took root and elaborate styles came to light.

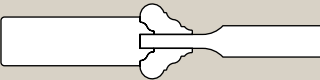

- The Victorian era of architecture reigned from the 1830s until the beginning of the 20th century and was known as a period of romanticism.
- Ornamentation such as gingerbread detailing or Victorian lace is frequently used. Roof lines tend to be accented with hipped gables, towers and dormers.
- The ornate nature of the TruStile Victorian door line effectively reproduces this historic time period within your home.

## Design Options

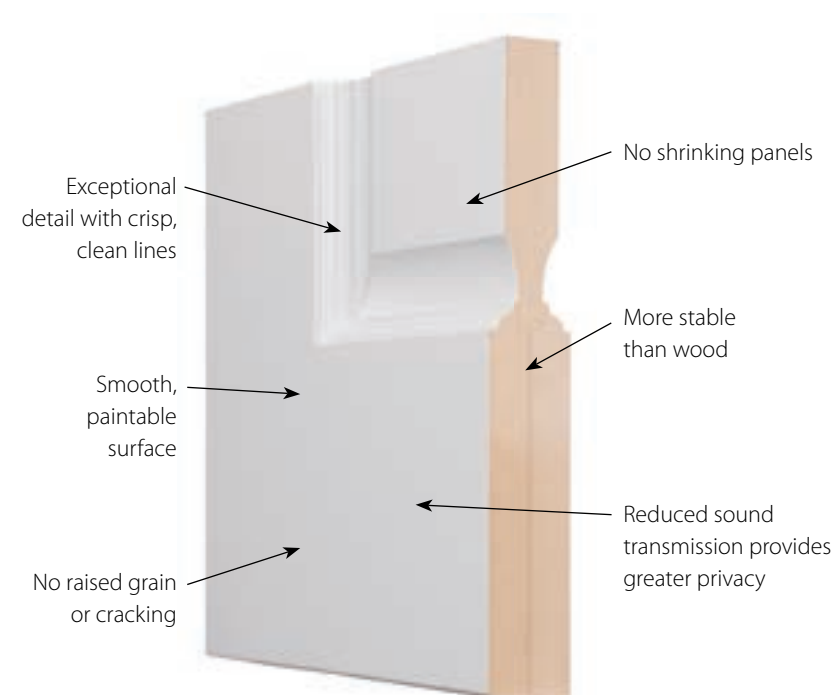

Like furnishings and décor, doors should complement your home's unique architecture and individual style. TruStile Doors provide you with ultimate flexibility, offering unique design options including accents of metal, glass, resin and leather; common arch pairs and built-in mirrors — just to name a few.

TS3000 in MDF with Custom sticking and Senior Raised (E) panel

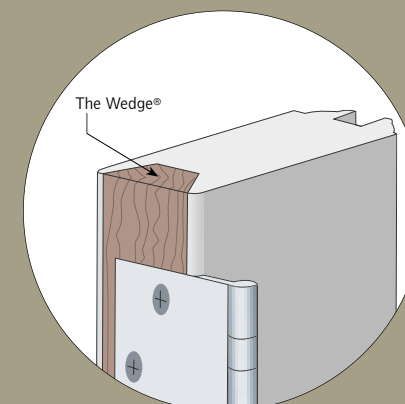

## Ideal for Painted Applications

## TruStile MDF Doors

TruStile MDF Doors provide quality that is unrivaled. Our super-refined MDF material and meticulous construction methods result in a painted door product that is a cut above the rest.

- Made to order and built to any size and style.
- Built with genuine stile and rail construction — never routed or stamped.
- Made with solid, super-refined MDF that provides a smoother painting surface than pine, poplar or lower-grade MDF alternatives.
- MDF is more stable than natural wood and less susceptible to movement and warping.
- More affordable than wood doors.
- Third party certified by Scientific Certification Systems to contain 69% recycled content, making them ideal for green building.

### HARDWOOD WEDGE EDGE SYSTEM

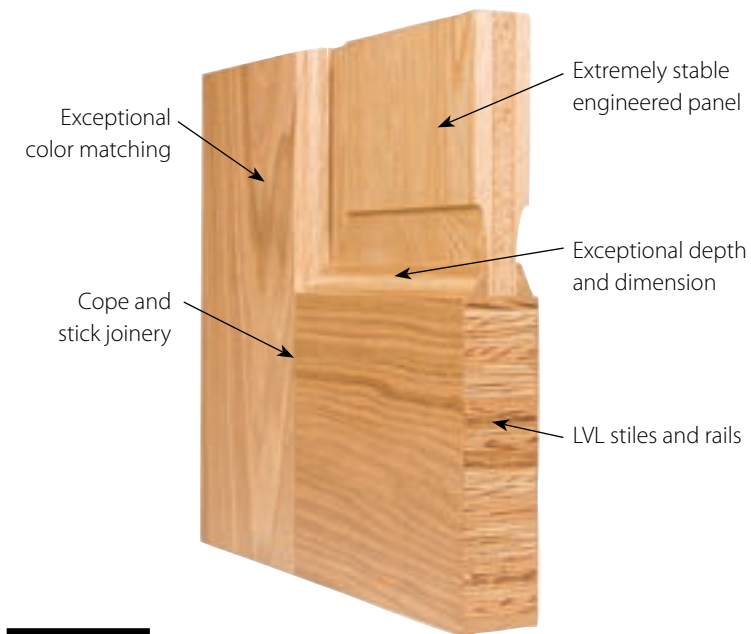

TruStile MDF doors come standard with The Wedge,<sup>®</sup> our field-proven hardwood edge system. Designed to stand up to daily use, The Wedge provides superior rigidity, stability and screw-holding power.

TM13340 in Walnut with  
Edelman® Royal Hide

## For the Most Discerning Eye

## TruStile Reserve™ Wood Doors

Designed to the highest level of quality, TruStile Reserve™ Wood Doors are the ultimate expression of luxury for today's interiors and are constructed using the latest technological advances combined with meticulous hand craftsmanship.

**TRUSTILE**  
RESERVE™

- The TruStile Reserve series incorporates only the finest materials and methods. We have developed a proprietary specification based on the AWI (Architectural Woodwork Institute) standard for AA Premium Grade doors.
- Engineered panel made with a composite core for strength and stability while maintaining the look of a solid wood panel construction.
- Precision-cut cope and stick joinery for a meticulous, uncompromising look.
- The strength and durability of LVL is employed for the ultimate in stiffness to resist bowing, twisting or warping.

### EXCEPTIONAL HAND-MATCHED VENEERS

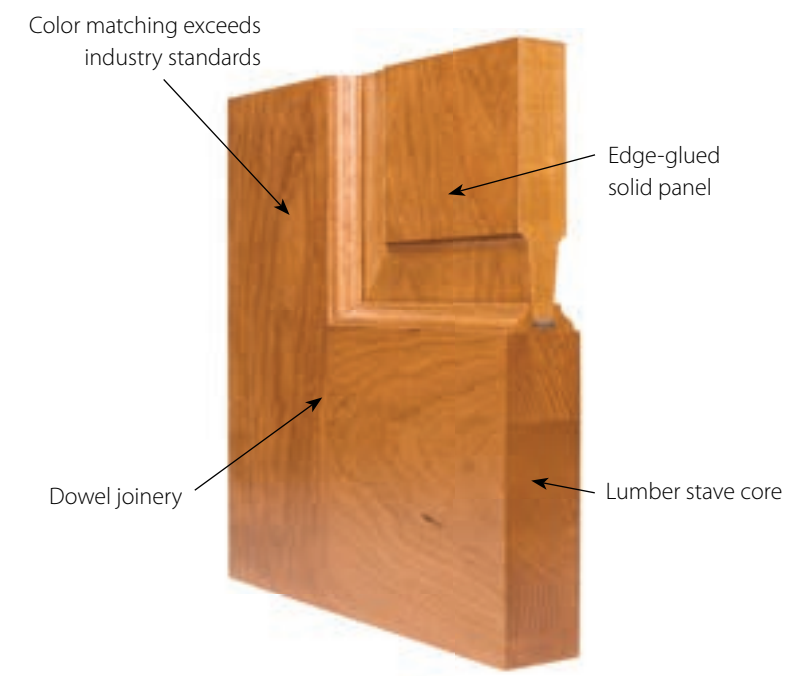

TruStile created a proprietary color matching and grading system to ensure only the best veneers and lumber are used to handcraft your door. Based on the AWI AA Premium Grade standard, but taken a step further, TruStile Reserve Doors are unmatched in beauty.

For the  
Harmonious  
Home

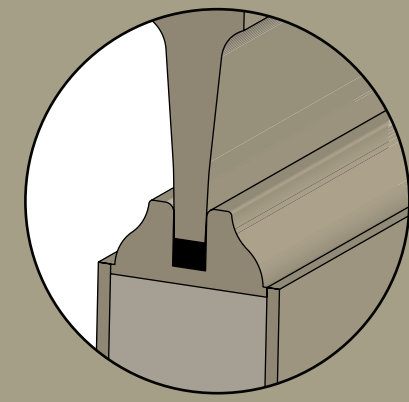

## TruStile Wood Doors

Made in the authentic stile and rail manner, TruStile Wood Doors use a premium mix of materials that exceed industry standards for a truly natural look.

- Parts are tested and sorted into a premium mix of components that exceed industry standards. All components are blended for color and grain pattern matching.
- Edge-glued solid wood panels for a premium look and feel.
- Traditional dowel construction enhances strength and durability.
- An engineered stave lumber core is cut to size with alternating grain patterns, which balances the core and reduces wood's natural tendency to move.

### Floating Panel System

### PANEL RETENTION

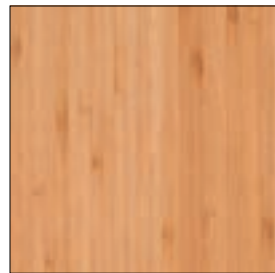

TruStile doors are engineered with a unique floating panel system that allow expansion and contraction while securing the panel to prevent shifting, settling and rattling. Flexible cushions are inserted into the stile and rail grooves followed by the panels that rest against them. The cushions allow the wood to expand and contract while holding the panel in position.

## Commercial Applications

From hospitality and high-end multifamily projects to health care and educational institutions, TruStile provides the right finishing touches for distinctive projects across the United States.

TruStile doors can be built to meet any commercial specification — including 20- through 90-minute fire ratings, ADA requirements and sound ratings.

# Transform Openings & Elevate Your Project

TruStile designs premium doors for a wide array of market segments and distinctive properties across the United States.

## Design Consistency Regardless of Function

Providing ultimate design flexibility, TruStile offers a spectrum of products for every project application. Whether passage, glass, fire or sound doors, TruStile allows you to maintain design consistency across all of your openings.

# Design that Complements the Planet

Our modern, domestic plants use lean manufacturing practices to make extremely efficient use of our raw materials. This minimizes waste and environmental impact.

## 69% Recycled MDF Doors for Painted Applications

TruStile MDF doors are not only the highest quality paintable doors on the market, they are also the responsible environmental choice. We recycle MDF waste, donating it to agricultural partners who use it to create energy, reducing both landfill waste by 65% and waste pick ups, putting fewer trucks on the road. The green benefits of our MDF doors include:

- Certified by SCS Global Services to be constructed of 69% recycled content.
- Eligible for up to three LEED® credits
- Manufactured with low-emitting adhesives and coated with low-emitting primer.
- Standard MDF is low emitting, meeting CARB (California Air Resources Board) requirements.
- A no-added formaldehyde MDF option is also available.

## FSC® Certified Wood Doors for Stained Applications

Most TruStile wood doors are available with FSC certification. FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The green benefits of our FSC certified wood doors include:

- Third-party certification that all door materials originate from responsible sources.
- 100% of door value contributes towards the LEED credit for Certified Wood Products.
- Manufactured with low-emitting adhesives.
- Green-certified doors contain the same high-quality construction and materials as our standard product.

## Use TruStile on Your Next LEED® Certified Project

The LEED® (Leadership in Energy and Environmental Design) Green Building Rating System is a national standard developed and published by the U.S. Green Building Council (USGBC). Its purpose is to promote sustainable building that is environmentally responsible, profitable and healthy. TruStile doors also qualify for other green building rating systems. Contact us for details.

TruStile Doors help achieve LEED credits in the following categories for new commercial construction and major renovation projects<sup>1</sup>:

| LEED credit                  | LEED criteria                                                           | Detailed requirement                                                                                                                                                                                                    | TruStile MDF                                                  | TruStile Wood                                                                          |

60-MINUTE FIRE DOOR

NON-RATED DOOR

Profiles on fire-rated doors have true depth and definition, not plant-on mouldings.

# Our Fire Doors are as Stylish as They are Safe

Designed to match non-rated doors, all TruStile fire doors feature full panel relief and are carefully engineered to complement our non-rated doors.

Non-rated TS3070 in MDF

20-minute fire-rated TS3070 in MDF

## Matched Dimensions

Stile and rail dimensions can be matched between standard and fire-rated doors.

## Certified Fire Door Ratings

Throw away the preconception that you have limited design options for fire-rated openings. With most of our standard panel doors available in up to 90-minute ratings, you never have to sacrifice style when selecting 20- through 90-minute fire doors.

|                      | 20-minute MDF                                | 20-minute Wood                               | 45- and 60-minute MDF/Wood                                     | 90-minute MDF/Wood       |

\*\*Some ratings require metal vision kits.

## Fire Rated Glass Doors Also Available

Glass doors are the perfect solution for spaces where a fire door is required by code, but the look of a glass door is preferred. Select from over 120 fire-rated glass doors with any of our standard sticking profiles. Refer to the fire-rated symbol  in the Door Collections section to see which glass door designs are available in 20-, 45-, 60- and 90-minute fire ratings. Hose stream-approved glass can also be specified.

Sound Transmission Class (STC) Examples

| TruStile Advantage                   | STC     | Performance | Description                                    |
|--------------------------------------|---------|-------------|------------------------------------------------|
|                                      | 50 – 60 | Excellent   | Loud sounds heard faintly or not at all        |
|                                      | 40 – 50 | Very Good   | Loud speech heard faintly                      |
| TruStile Door with Correct Gasketing | 35 – 40 | Good        | Loud speech heard but hardly intelligible      |
|                                      | 30 – 35 | Fair        | Loud speech understood fairly well             |
|                                      | 25 – 30 | Poor        | Normal speech understood easily and distinctly |
| Typical Hollow-Core Door             | 20 – 25 | Very Poor   | Low speech audible                             |

Sound ratings are classified by an STC (sound transmission class) number that rates a material’s ability to resist airborne sound. A higher STC rating blocks more noise from transmitting through a partition like a door. Standard TruStile MDF doors achieve up to a 34 STC rating, some 10- to 15-points better than typical hollow-core doors that achieve a “very poor” rating. For openings requiring even better sound performance, TruStile can provide 60-minute wood and MDF fire doors that achieve up to a 39 STC rating.

Home theater featuring TS3070 in Mahogany with custom porthole window

TS3000 in Mahogany with  
Linea tiered moulding

TS3000 in MDF with White Lami glass

## The Extensive TruStile Door Collection

Find the ideal design that enhances your home's  
architectural style and completes its distinctive look.

**UNLIMITED  
POSSIBILITIES**

Choose from over 400 door styles  
and 66 profile options.

TS3080 in Knotty Alder

# TS Door Collection

Our TruStile (TS) Door Collection features over 100 architecturally-correct panel door styles from one- to nine-panel configurations. Each door is built with genuine stile and rail construction and is never routed or stamped. As a result, our panel doors have crisp, clean lines and unmatched detail.

TS3070 in MDF with Roman Ogee (OG) sticking and Raised (A) panel

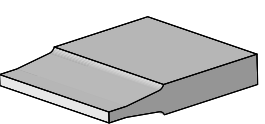

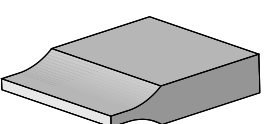

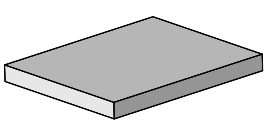

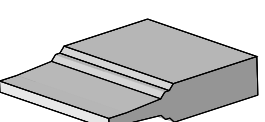

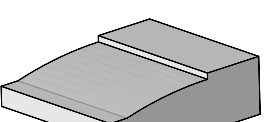

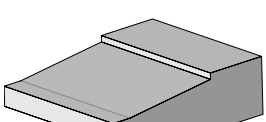

# Panel Door Profile Options

A door profile refers to the joint where the sticking and panel come together. You can achieve distinct looks by selecting different sticking and panel combinations. With so many combinations to choose from, we're confident you'll find the perfect profile for your project. If not, we can partner with you to create a custom profile.

## Sticking Profile Options

|                                                                                                                             |                                                                                                                      |                                                                                                                      |                                                                                                            |

## TM Door Collection

The Tru&Modern™ (TM) Door Collection consists of over 100 contemporary door styles. A modern take on classic stile and rail door construction. Clean, strong lines. Custom design options. Bold accents. This collection radically alters the concept of what a door can bring to today’s modern and contemporary interiors.

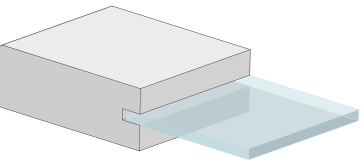

### TM Series Door Styles: New Configuration Door Series

### Tru&Modern Profile Options

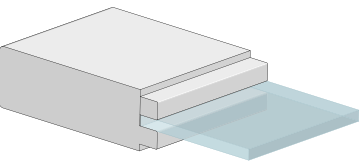

TM New Configuration door designs are available with two profile options to frame the desired insert:

#### Square Stick (SS) Compression Fit

Compression fitting not available for leather inserts. Glass can not be replaced on compression fit doors

#### Square Stick (SS) Sash

Square Stick sash not available for wood panels. Use One Step (OS) sticking to match Square Stick (SS) sash around wood panels.

**Note:** Door styles are shown with the new modern wide stile. Shaded panels indicate an insert option: leather, metal, glass, resin or a flat wood panel.

Available TruStile

# Custom Design Door Collection

Our Custom Design (CD) Collection features an eclectic mix of custom styles from our design team. These exclusive TruStile designs fulfill a variety of architectural styles and are perfect for creating a dramatic visual impact. TruStile’s Custom Design Collection proves that doors can be just as exciting as other home design elements.

AD3030 in MDF and White Lami glass with custom star-shaped plant-ons

LVR2020 in MDF

# Louver Door Collection

Our Louver (LVR) Door Collection creates architectural interest and enhances a variety of styles. These plantation-style louver doors feature fixed, over-sized louvers in vented and false configurations.

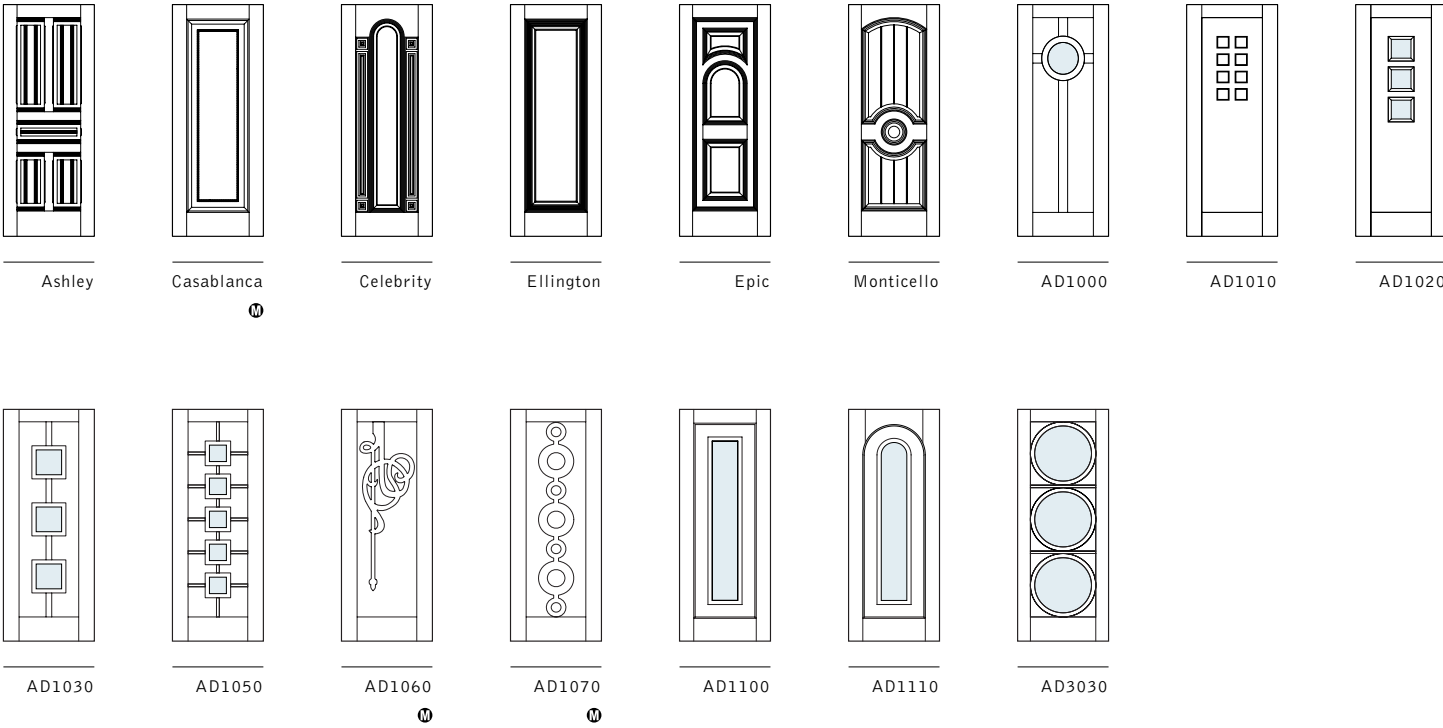

## Vented Louver Doors

Vented louver doors permit air flow making them ideal for closets and laundry rooms where ventilation is preferred.

## False Louver Doors

False louver doors are ideal for applications where a louver look is desired, but total privacy is a necessity.

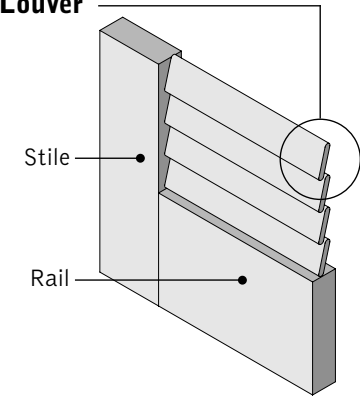

# CD Series Door Styles
